

Introspection report on objects

Module	Name	Version	Directory	Web
advanced_tender_management	Advanced Tender Management	17.0.1.0.0	advanced_tender_management	https://www.cybrosys.com

This module streamlines the tender management process, allowing users to create tenders directly in the system. Vendors can submit their bids through the website, and the best tender can be selected based on criteria. Once a tender is chosen, a purchase order can be generated and sent to the vendor.

Object: bid.selection	
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
current_tender_id	Current Tender, many2one related tender
display_name	Display Name, char, readonly
id	ID, integer, readonly
tender_bid_id	Bids, many2one related tender bid
vendor_id	Vendor, many2one, readonly related vendor
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly

Object: import.tender.product.line	
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
display_name	Display Name, char, readonly
file	File, binary, required tender file

id	ID, integer, readonly
tender_id	Tender, many2one related tender
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly

Object: purchase.order	
tender_id	Related Tender, many2one tender related to this purchase order

Object: res.config.settings	
auto_approval	Auto Approval, boolean Automatically approves vendor and grants portal access
manual_approval_users_ids	Approval Users, many2many Users who can grant portal access to vendors

Object: res.partner	
is_vendor	Is Vendor, boolean is partner a vendor or not
registered_tenders_ids	Registered Tenders, many2many vendor registered tenders
tender_category_ids	Tender Categories, many2many vendor registered categoriescategories

Object: tender.bidding	
bidding_date	Date, date tender bidding date
bidding_state	Bidding State, selection bidding stages
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
display_name	Display Name, char, readonly
edit_request	has vendor requested for bid edit, boolean edit existing tender bid
has_message	Has Message, boolean, readonly

id	ID, integer, readonly
legit_bid	Legit Bid, boolean, readonly is bid legit or not ?
message_attachment_count	Attachment Count, integer, readonly
message_follower_ids	Followers, one2many
message_has_error	Message Delivery error, boolean, readonly If checked, some messages have a delivery error.
message_has_error_counter	Number of errors, integer, readonly Number of messages with delivery error
message_ids	Messages, one2many
message_is_follower	Is Follower, boolean, readonly
message_needaction	Action Needed, boolean, readonly If checked, new messages require your attention.
message_needaction_counter	Number of Actions, integer, readonly Number of messages requiring action
message_partner_ids	Followers (Partners), many2many
name	Bidding Reference, char, readonly Bidding Reference
qualification_stage	Qualification Stage, selection bid qualified or not ?
rating_ids	Ratings, one2many
tender_bid_products_ids	Tender Bid Products, one2many tender products for bidding
tender_id	Tender, many2one chosen tender
total_bidding_amount	Total Amount, float, readonly bidding total
vendor_attachments_ids	Attachments, many2many vendor attachments for the tender
vendor_id	Vendor, many2one name of the vendor
vendor_rank	Vendor Rank, integer, readonly Rank of the vendor
website_message_ids	Website Messages, one2many Website communication history
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly

Object: tender.bidding.product.lines	
bid_chosen	Purchase Bid, boolean bid selected for the tender
bid_qualified	Qualification Stage, selection, readonly has the bid qualified or not ?
bid_status	Bid Status, selection reselect the bid for the tender
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
display_name	Display Name, char, readonly
display_type	Display Type, selection display type for the product lines
id	ID, integer, readonly
name	Description, char, required product description
product_code	Code, char, readonly product code
product_id	Product, many2one tender product for bidding
product_price	Your Price, float product price
product_qty	Qty, integer product quantity
product_total	Product Total, float, readonly product price total
product_uom_id	Unit of Measure, many2one, readonly product unit of measure
sequence	Sequence, integer sequence for the tender product line
tender_bidding_id	Tender Bidding, many2one related bid
tender_id	Tender, many2one, readonly related tender for the bid
vendor_id	Vendor, many2one, readonly related vendor for the bid
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly

Object: tender.category	
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
display_name	Display Name, char, readonly
id	ID, integer, readonly
name	Tender Category, char, required create a new tender category
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly

Object: tender.document	
attachment	Attachment, binary, required Attachment related to the tender
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
display_name	Display Name, char, readonly
filename	Filename, char Original filename of the attachment
id	ID, integer, readonly
name	Name, char Name of the document
note	Note, text Notes related to the document
tender_id	Tender Reference, many2one related tender
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly

Object: tender.management	
address_city	City, char, required Enter the city where the tender is located.
address_country_id	Country, many2one, required Select the country where the tender is based.
address_state_id	State, many2one, required Select the state or region where the tender is based.

address_street	Street, char, required Enter the street address related to the tender.
all_bid_count	All Bid Count, integer, readonly Total number of bids received for this tender.
best_bid_id	Best Bid, many2one The bid selected as the best option for this tender.
bid_end_date	Bid End Date, date, required Indicate the deadline for submitting bids.
bid_start_date	Bid Start Date, date, required Indicate the start date for accepting bids.
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
description	Description, html, required Provide a detailed description of the tender.
display_name	Display Name, char, readonly
evaluation_bid_count	Evaluation Bid Count, integer, readonly Total number of bids under evaluation.
has_message	Has Message, boolean, readonly
id	ID, integer, readonly
legit_bid_count	Legit Bid Count, integer, readonly Total number of legitimate bids received for this tender.
message_attachment_count	Attachment Count, integer, readonly
message_follower_ids	Followers, one2many
message_has_error	Message Delivery error, boolean, readonly If checked, some messages have a delivery error.
message_has_error_counter	Number of errors, integer, readonly Number of messages with delivery error
message_ids	Messages, one2many
message_is_follower	Is Follower, boolean, readonly
message_needaction	Action Needed, boolean, readonly If checked, new messages require your attention.
message_needaction_counter	Number of Actions, integer, readonly Number of messages requiring action
message_partner_ids	Followers (Partners), many2many
name	Name, char, required Enter the name of the tender.
purchase_confirmed	Purchase Confirmed, boolean Indicates whether the purchase has been confirmed.

purchase_order_ids	Purchase Order, many2many Purchase orders associated with this tender.
qualified_bid_count	Qualified Bid Count, integer, readonly Total number of qualified bids for this tender.
rating_ids	Ratings, one2many
registered_vendors_ids	Registered Vendors, many2many Vendors registered to participate in this tender.
responsible_id	Responsible, many2one, required Select the person responsible for managing this tender.
tender_category_id	Tender Category, many2one, required Select the category that best describes this tender.
tender_end_date	Tender End Date, date, required Specify the date when the tender ends.
tender_file_ids	Tender Files, one2many, required Upload and manage tender-related documents.
tender_product_line_ids	Tender Product Line, one2many List of product lines included in this tender.
tender_purchase_count	Tender Purchase Count, integer, readonly Number of purchase orders confirmed for this tender.
tender_start_date	Tender Start Date, date, required Specify the date when the tender starts.
tender_state	Tender State, selection Current status of the tender process.
tender_type	Tender Type, selection, required Choose whether the tender is for a single vendor or requires product-wise vendors.
website_message_ids	Website Messages, one2many Website communication history
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly

Object: tender.product.lines	
create_date	Created on, datetime, readonly
create_uid	Created by, many2one, readonly
display_name	Display Name, char, readonly
display_type	Display Type, selection display type for the product lines
id	ID, integer, readonly

name	Description, char, required product description
product_code	Code, char, readonly product code
product_id	Product, many2one tender product for bidding
product_qty	Qty, integer product quantity
product_uom_id	Unit of Measure, many2one, readonly product unit of measure
sequence	Sequence, integer sequence for the tender product line
tender_id	Tender, many2one related tender
write_date	Last Updated on, datetime, readonly
write_uid	Last Updated by, many2one, readonly
